

Daily Job Site Update for 11/15/08 – 11/16/08:

The morning started early with guys from Quality Landscaping being the first to arrive working on the paver walk in the back yard. Then came the volunteers helping out wherever needed.

The garage is swept, the floors are clean, more laminate floor is laid, more bark is hauled and spread, wheelbarrows of gravel for pavers hauled and the paver walk in the back yard continues to extend into the back yard. Dave spent the afternoon wrapping up the finish carpentry in the lower level. Tony and Jesse are coming Sunday to finish up the carpentry on the main floor. We are in the home stretch!

I asked a few of the volunteers why they came and here is what they said:

- Dan from Grafton who today laid floor in the sunroom, swept up and hauled materials and worked with the landscapers hauling dirt said.... "My Mom goes to St. Joe's and told me about the project. I worked on the Harley Habitat project and "just love helping out" so wanted to help on this. I never expect anything in return and if you would never know I was here it would be OK by me".
- 4 guys from Elmbrook Church along with a friend (Greg, Travis, David, Jeffrey and friend Tyler) heard about this from an announcement made at "Impact" (a 20 Something Group at Elmbrook).... They decided to drive up to Grafton because "We just wanted to help out. It's a good opportunity to serve".

So, there you go... more Hometown Heroes!!! What a great way to spend a Saturday!

Kathy
